Thank you

Dear David

Just a small thank you for a big deal! It was great to meet someone who could realize the urgency to secure funding for the purchase of my practice. I do realize it was little time with lots of pressure to meet the target.

I can admit it was the right advisors (Banks) you have put me in touch with. The advice and guidance you have provided throughout this purchase led to securing the competitive and flexible terms that I needed. Maybe this was as a result of working with Loan Hunter.

I appreciate that you helped me to complete the sale at a given date by even taking the time to come and see me outside office hours at home to achieve this. I value your professionalism and efficacy at all times. This was a great stress relief.

Thank you again
Kind Regards
