

Recruitment

Over the years many owners and associates of dental practices have approached us for advice on recruitment, but until now it has been a service we have not been able to offer. However, we are now delighted to announce a newly formed association with a well established and long standing medical specialist recruiting company called MedicsPro Ltd. And with over 20 years experience in the health care sector we are confident they are the right partners for us and as importantly for our clients.

We have seen a real need for a specialist dental recruitment service which would be right for our clients but felt it vital we could only associate ourselves with a partner who not only has knowledge and understanding of the dental market but also has the synergy to fit with our own ethos and culture and we believe we have found this in MedicsPro.

With a solid reputation for providing high quality candidates and excellent customer service, they pride themselves on offering an honest and transparent approach which has contributed towards their excellent reputation as a nationwide provider of high calibre medical recruitment solutions. Also as a Member of the Recruitment and Employment Confederation, MedicsPro adhere to the guidelines and industry standards of their trade body, this ensures you can be confident that we and you will be working with a respected and compliant medical staffing agency.

So, next time you want to know about your options on recruitment from any perspective you can talk to us and with our new association we are sure we can help you.

Since joining MedicsPro I have found them extremely efficient and I have only accepted positions offered to me through them. They worked hard to ensure that the jobs offered fitted with my clinical experience. **Kate Parker**
